### MIDDLE T. S. NORMAL.

As winter approaches, we find it is only a more opportune time to read the home paper. So, if you are not a subscriber, you should be, and don't fail to take advantage of the present subscription rate. Our examination are now at the front gate, but Overton and I always have scramble as to who will read the home paper first.

I can't hardly do anything with Overton, no way, as we are just back from a trip to Cookeville, and put in quite a bit of time with his fair lady. He is always very enthusiastic after such an occurrence.

Most of the exciting seems to have happened around the Normal for this semester. Prof. Wynn always closes up the quarter by giving all the students in his department a social evening, and he gave this on Friday evening December 2nd.

Our team has started its practice for basket-ball and any team that has ever had a dream, even that they can play basket-ball would do well to schedule a game with them.

The Y. W. C. A. and Y. M. C. A. have just completed a drive to raise money for the suffering children of the Far East. In this drive a very good sum has been raised. The Y. W. girls in this drive did all kind of work, from shining shoes to scrubbing floor and dusting rugs and mats.

The M. T. N. Glee Club will give its quarterly program in the main auditorium on Friday evening Dec. 23. A public invitation is extended to all that may be situated so that it will be possible for them to attend. But let this should reach the waste basket I will close.

Wesley P. Flatt.

Edna, the 11 year old daughter, of Mr. and Mrs. J. E. Richmond, of Rough Point, was stricken with pneumonia fever here Saturday night, while attending Field Day. She was conveyed to her home Sunday morning, and is reported resting as well as could be expected. Edna is a unusual bright little girl, and has many close friends who regret to hear of her illness, and hope that she will soon be well. She represented her school, New Bethel, Friday afternoon in the recitation contest, winning first place with all ease.

### FIELD DAY JUDGES COMMENDED.

The Sentinel, as the representative of the people, and especially the schools of the county and the pupils who participated in the contests, desires to commend Prof. and Mrs. Chas. McClanahan and Miss Wilson of T. P. I., who served as judges, for their impartial and fair decisions in all the contests, and for their untiring service.

Through their service and with the assistance of the county superintendent and teachers, the field days were a success.

The pupils deserve special mention, all acquitted themselves with much honor.

### IN MEMORY

Of my dear loving brother, who departed this life Oct 12th. On Monday night when Wirt was taken worse, he called me to his bedside and taking me by the hand said, "Allene I am going to die, God bless you, you have been so good to me. I have got to go." I ask him was he alright and he said he was, saying "don't cry, don't worry about me, I am alright."

It was so hard to give him up, but the Lord had a better home up yonder for him. Why such a jewel should be taken we cannot tell, we will understand better by and by. I can truthfully say the brightest flower in our home has been plucked. He cannot come back to us, but we can go him. Wirt was always kind and good, always ready to do the things that was right. He proved his love to us all. He thought so much of his mother, our home is so lonely without Wirt. The vacant place, the empty chair, we see them day by day, and Oh it fills our hearts with care, since our loved one went away.

His loving sister,

Allene.

### THE DOOR SLAMS

### ON HAPPINESS

### Poor Blood Makes

### Bad Health--Then

### Comes the "Blues"

One the vigor of red blood becomes sapped of its strength, the door to happiness is literally slammed. Weariness of the body follows and it unfailingly engenders depressed thoughts. To be reserved and cheerless becomes a habit. After a time there is an almost filmy dimness in the expression of the eyes and a pallor to the skin. Days seem dull and difficult. A sense of insufferable gloom prevades the spirit.

Then it is that Gude's Pepto-Mangan is the great help. It is the red blood builder. It puts red into the blood—increases the number of corpuscles which make blood rich and red. When the blood is restored to its natural healthy state, the sensation of wellbeing returns. Instead of shuffling along carelessly, there is the firm and springy step, the bright lusterful eyes, the clear complexion, identified with the strength and vigor of good health. The druggist has Gude's Pepto-Mangan in both liquid and tablet form. Advertisement.

### HERE'S A JOB FOR 500 BRAVE MEN.

I must double my body guard in this city. I've narrowly missed death on several occasions, seems only by a hair's breadth.

It was only a lucky turn of the wheel of good fortune that I was not shot the other day when Sammy Toy was shot down like a dog.

As mayor of this place I am endeavoring to protect society and the social institutions. In the fulfillment of this duty I am exposed to many dangers.

These are hazardous times, that try men's souls. The liquor laws are being held in contempt by the law breaking rough-neck element of our country.

The Zigzag Hollow, from one end to the other, is honeycombed with stagger water factories, that are turning out thousands of gallons of real new wiry edged mountain dew. Two drinks of this devil's broth will make a jack rabbit rear up on his hind legs and slap a bull dog in the face.

The desperadoes and riraff of Fiddlers Green, Bluecut Ruin and Gad Town tank up on this murderous stuff ever and anon and ride over to this town and ride up and down our streets and shoot up our city.

They have shot down, judges, attorney generals, preachers, and many of our inoffensive citizens.

So I make this demand for a body guard merely as a matter of self preservation, that I may live and serve the people of Yuby Dam.

I would like to have volunteers if possible, but will conscript if necessary.

Given under my hand and seal this Dec. 1, 1921.

The Mayor of Yuby Dam,

P. S. You furnish your own ammunition, but will have access to my soup stand to keep up your strength.
